STATE BOARD OF NURSING

NEWSLETTER

The Official Publication of the Missouri State Board of Nursing with a quarterly circulation of approximately 98,000 to all RNs and LPNs

Volume 2 No. 4

MESSAGE FROM THE PRESIDENT

Robin Vogt, MSN, RN, FNP-C
President, Missouri State Board of Nursing

Greetings to all. As this year's Board President, I hope to keep you aware of items of interest to you. In order to accomplish this, we must hear from you regarding your concerns.

I had the opportunity to be a delegate at this year's National Council meeting in July. Dee Esry and Janet Anderson joined me as Board members, as well as Calvina Thomas and Lori Scheidt, Board staff. Increasing the NCLEX® examination fee was a hot topic with a proposal of an increase to \$180. During the motion, it was amended to \$200 by Utah. Missouri voted *no*; however, the motion passed and as of October 1, 2001, the new fee for the NCLEX® examination will be \$200. Other items discussed were updates on the states that now have mutual recognition, advance practice issues concerning competency and minimum standards, and a response to the IOM's (Institute of Medicine) report on "To Err is Human." Another major topic is the upcoming nursing

Vogt

shortage. Nationally, there is a 6% decrease in new nurses and the average age of the practicing nurse keeps increasing.

Missouri has the second lowest license renewal fee in the United States. As noted in the last newsletter, our renewal fee is being increased. The last increase was in 1993 when it changed from \$21 to \$23 per year for RN and \$17 to \$19 per year for LPN. The Finance Committee is closely evaluating this at this time. The Division of Professional Registration recently purchased and is now implementing a new system for licensing as well as optical imaging for information management. Because nursing comprises 30% of the licensees in the Division, we assessed are 30% of the costs, as well as 30% of the costs of this type of equipment. This along with the increasing number of complaints, increases our costs. As always, our goal is to keep renewal fees at a minimum.

Hopefully, more and more information can be accessed over the Internet to facilitate our licensees. This saves your time as well as postage for mailings, copying, etc. that decrease budgetary needs.

As working practitioners ourselves, Board members are kept apprised of current problems facing our profession. It is our duty as a Board to ensure safe and effective nursing care in the interest of public protection. When safety becomes compromised because of a shortage or other issues, please help us by keeping us informed.

In Loving Memory of

Rhonda M. Stegeman

June 1, 1950 - October 11, 2000

Some may think we have forgotten
When at times they see us smile
Little do they know the heartache
That our smiles hide all the while.

We think of her in silence
So no eyes can see us weep
But many silent tears are shed
While others sleep.

It broke our hearts to lose her
But she did not go alone
For part of us went with her
The day God called her home.

Sadly Missed by Family, Friends & Co-Workers

Newsletter Dedication

This edition of the Newsletter is dedicated in loving memory of Rhonda Stegeman.

Rhonda M Stegeman, 50, of Jefferson City, died Wednesday, October 11, 2000, at her home. She was born June 1, 1950, in California, Missouri, a daughter of Elmer and Edna Mae Grafe. She was a 1968 graduate of Fatima High School in Westphalia. She was married June 29, 1968, in Taos, to John Stegeman, who survives at the home.

Mrs. Stegeman worked as a Licensure Technician for the Missouri State Board of Nursing for the past four years. She had previously worked for Target and Jefferson City Medical Group. She was a member of St. Joseph Cathedral.

Mrs. Stegeman is also survived by three sons: Rory J. Stegeman and his wife Angela of Jefferson City; Chad A. Stegeman of New York, New York; Kevin J. Stegeman and wife Jeri of Jefferson City; her mother and step-father Edna Mae and Delmar Luadzers of Jefferson City; four sisters: Sherry Stratman of Jefferson City; Dana Bernskoetter of Springfield, Missouri; Joyce Schnur of Taos; Leila Cavender of Linn; one step-brother, Randy Luadzers of Taos and one granddaughter, Alaina Stegeman of Jefferson City.

Rhonda was a dedicated and loyal employee of the Board of Nursing. We will truly miss her.

Special announcement to all RNs

April 30, 2001, is the expiration of all currently licensed RNs in the State of Missouri. Renewal notices will be mailed in January/February 2001.

If you have moved within the past two years or experienced a 911 address change please do not forget to notify us. Also, if you have changed your name, please notify us of the change.

Renewal notices are not forwarded by the postal service. Each renewal period, thousands of renewal notices do not get delivered due to a change of address. This problem can, and has, resulted in a delay in getting a nursing license renewed. An expired license can then become a lapsed license. In order to renew a lapsed license, additional fees must be paid. Do not let this happen to you!

You may notify our office of an address change by any of the following methods:

1.

By Mail:Missouri State Board of Nursing
PO Box 656
Jefferson City, MO 65102
2.

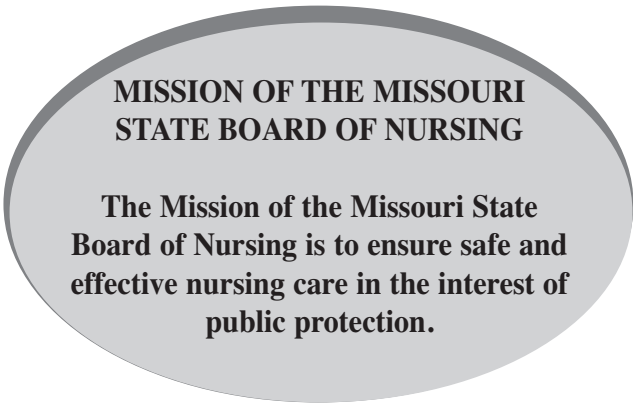

By Phone: 573-751-0681
3.

By E-Mail: nursing@mail.state.mo.us
4.

By Fax: 573-751-0075 OR 573-751-6745
5.

In Person: 3605 Missouri Boulevard,
Jefferson City, Missouri

Don't get caught up in the late renewal/late license dilemma. Inform us of your address change as soon as possible and if you know of someone, who is moving, do them a favor and remind them to contact us. An up-to-date address will also allow you to continue to receive our quarterly Newsletter that is now sent to all 98,000+ licensees; another good reason to let us know that you have moved.

Nursing Shortage?

Calvina Thomas, PhD, RN
Executive Director

It seems that the current nursing shortage is a major concern to many of us in the healthcare arena. Recently, our office has responded to numerous requests for information on the shortage. I thought I would share the information we gathered with you.

The number of students entering nursing programs has decreased, as evidenced by the charts below.

LPN Number of Students Tested/
Passed in Missouri

	Number Tested	Number Passed
FY 96-97	1310	1146
FY 97-88	1148	996
FY 98-99	1077	936
FY 99-2000	1058	876

RN Tested/Passed in Missouri

	Number Tested	Number Passed
FY 96-97	2547	2161
FY 97-98	2284	1921
FY 98-99	2060	1678
FY 99-2000	1866	1563

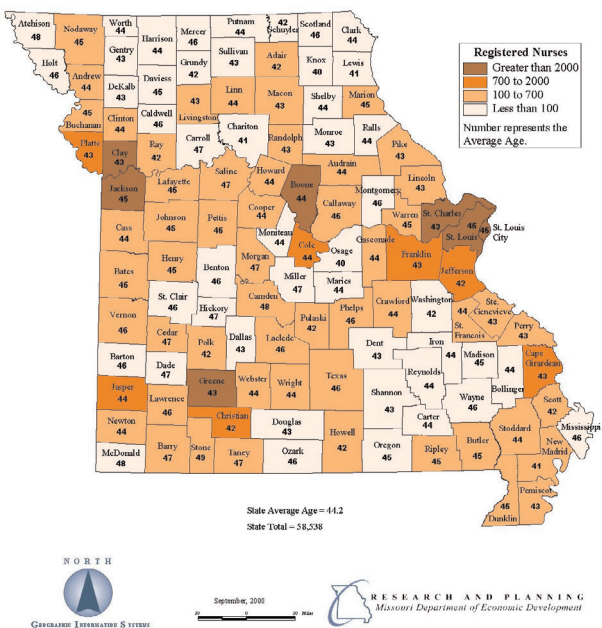

In the past, the Board of Nursing has seen the number of nurses increase by 1½ to 2% per year. That has changed. From fiscal year 1999 to fiscal year 2000, we saw a 5.8% decrease in the number of currently licensed LPNs. RN licenses expire April 30, 2001, with the current trend, we anticipate that, at the minimum, 6% of the RNs will not renew.

Active Nurse in Missouri

	RN	LPN
FY 95-96	66,100	21,500
FY 96-97	64,368	21,482
FY 97-98	71,944	21,750
FY 98-99	68,801	23,683
FY 99-2000	75,849	22,296

A query of our database shows that the average age of LPNs, residing in Missouri, with a current Missouri license is 43.5 years. The average age of RNs is 44.2 years. The maps show you the average age by county and the number of nurses (represented by ranges) for each county. This seems to be proof that the aging nurse workforce is a problem.

Missouri Coalition of Nursing Summit

Cordelia (Dee) Esry, PhD, RN

Board Member

Complex issues face today’s nurses, and a coalition of organizations within the profession is attempting to provide leadership on those challenges.

The Missouri Coalition for Nursing held a summit on September 27, 2000, in Jefferson City, Mo., that brought together more than 30 participants from across the spectrum of nursing to discuss the profession’s future, opportunities and the evolving role of nurses. The Coalition is comprised of members from the Missouri State Board of Nursing, the Missouri League for Nursing, the Missouri Organization of Nurse Executives, the Missouri Nurses’ Association, and the Missouri Society of Licensed Practical Nurses.

The summit’s purpose was to discuss how the current nursing shortage is different, what is evolving for the profession, and to set long- and short-term goals.

The Coalition identified several issues of concern to the nursing profession, including:

- Evolving competency requirements for nurses and resources to assist with those changes.
- Stressful work environments.
- Decline in recruitment and retention of applicants to nursing.
- New categories of nursing and roles for nurses (industry, pharmaceuticals).
- Working with school guidance counselors and recruitment for the profession.
- The image and perception of the nursing profession.

The coalition is working to gather information about the nursing profession in Missouri – including trends of where nurses are working, the hours they work and the education level with the type of employment. This current local data about nursing will help focus the priorities addressed at the Coalition’s next summit, planned for April 4, 2001, prior to the Missouri League for Nursing’s annual convention at Tan-Tar-A Lodge, Lake Ozark, Mo.

Board of Nursing to Begin Requiring FBI Background Checks on January 1, 2001

Applicants for a license by exam and endorsement are required to provide a completed fingerprint card with the application. This fingerprint card is used to conduct a background check by the Missouri State Highway Patrol. Beginning January 1, 2001, applicants will be required to provide 2 completed fingerprint cards. One card will be used to conduct a background check with the Missouri State Highway Patrol and the other card will be used to conduct a background check with the Federal Bureau of Investigations (FBI). The FBI charges a \$22.00 fee to conduct a background check. This fee will be passed through to the applicant.

It may take up to 3 months for the FBI to complete the background check, therefore, exam applicants are urged to apply to take the exam no later than 3 months prior to graduation.

List of Nurses Available for Download on the Web

The Division of Professional Registration's web site includes a link to downloadable profession listings. A list of Registered Nurses, Licensed Practical Nurses and advanced practice nurses may be downloaded free from the Division's web site at www.ecodev.state.mo.us/pr. The downloadable listings are updated every Friday.

Forms on Board's Web Site

A majority of forms can be found on our web site at www.ecodev.state.mo.us/pr/nursing. Click on the LICENSURE INFO/FORMS tab. The forms available are: RN endorsement application, LPN endorsement application, RN exam application, LPN exam application, Affidavit for a duplicate license, petition to renew RN expired license and petition to renew expired LPN license.

Commonly Asked Licensure Questions

Where do I call to verify a Certified Nurse Assistant (CNA) or Certified Medical Technician (CMT)?

Contact the Division of Aging at (573) 526-5686.

Where do I call to verify an Emergency Medical Technician (EMT)?

Contact the Bureau of Emergency Medical Services at (573) 751-6356.

What is the process for the Board to endorse my license to another state?

You must contact the state board of nursing where you want a license and request an application for licensure. Contact information for boards of nursing can be found at www.nursingboards.org. At the time you apply for licensure in another state, that Board will give you a verification of licensure form that must be sent to our office for completion. Fill out your part of the form and send it to our office **with a \$5.00 check or money order**. Please be sure to include your Missouri license number on the form and check or money order. We will complete the remainder of the form and forward it to the state in which you are applying for a license.

VERIFICATION OF A LICENSE

In order to verify licensure, ask to see an original current Missouri license or temporary permit before the employee reports to orientation. A temporary permit will have a raised Board seal. A license will have the expiration date, profession and license number. The license number could be the profession code (RN or PN) followed by a 6-digit number or a 10-digit number, which consists of the year of license followed by a 6-digit number. Example of a 6-digit license number could be RN060619. An example for the 10-digit license number is 2000134178. When requesting verification from our office, you must provide the complete license number, which includes the year of license.

The name, address and licensure status of all currently licensed nurses is public information. If you have any questions, please call the Board office to verify credentials **before hiring**. Our office is staffed Monday through

Graduate Nurse Practice

The Rule

State Regulation 4 CSR 200-4.020 (3) reads: “A graduate of a nursing program may practice as a graduate nurse until s/he has received the results of the first licensure examination taken by the nurse or until ninety (90) days after graduation, whichever first occurs.”

Missouri does not issue a graduate temporary permit, however, if the individual qualifies s/he may practice as a graduate nurse under 4 CSR 200-4.020 (3).

The graduate must cease practice as soon as s/he fails the exam or 90 days after graduation, whichever is first.

We recommend that you have the graduate sign an *Authorization to Release Confidential Information* form so we may provide you with periodic updates on the person’s exam and licensure information. A sample authorization form is included with this article.

After the Examination

Graduates applying for an original license by exam in Missouri will be licensed automatically upon receipt of passing results provided all other licensure requirements are met. When results are received, the successful candidate will be sent the results and a “pass” letter authorizing the person to practice until the license is received.

There is a thirty (30)-day grace period for graduates who have successfully passed the first available licensing examination in another state following graduation to obtain a temporary permit or license in Missouri after the graduate has received his/her results. Graduates applying for endorsement to Missouri should begin the Missouri licensure process immediately following graduation. As soon as the graduate receives passing results, the graduate should forward a copy of the results to our office so we can issue a temporary permit. A temporary

permit cannot be issued until another state has issued the applicant the authority to practice in that state.

About Orientation

Orientation is considered to be employment. Any nurse in orientation must have either a valid Missouri temporary permit or current Missouri license. The only exception to this policy is if the nurse is practicing under an exemption as listed in Chapter 335.081 of the Missouri Nursing Practice Act or under State Regulation 4 CSR 200-4.020 (3).

Proper Supervision

According to 4 CSR 200-5.010 (1), proper supervision is defined as, “the general overseeing and the authorizing to direct in any given situation. This includes orientation, initial and ongoing direction, procedural guidance and periodic inspection and evaluation.”

Frequently Asked Questions

What are the IV Therapy practice boundaries for IV Certified LPNs and non-IV Certified LPNs?

At www.ecodev.state.mo.us/pr/nursing, click on Nursing Practice Act, click on Rules and Regulations, and go to 4 CSR 200-6.010 Intravenous Fluid Treatment Administration. Section (1) and (2) clarify definitions used in the rule and specify RN and LPN accountability. Section (3) spells out the only IV Therapy-related procedures that may be carried out by non-IV certified LPNs who defensibly have the requisite knowledge, education, skills, training, judgment, and experience to perform the specified procedures competently and safely. Section (4) and (5) identify the procedures, including those stated in Section (3), which may be performed by IV Certified LPNs who defensibly have the requisite knowledge, education, skills, training, judgment, and experience to perform them competently and safely. Section (6) states those IV Therapy procedures that cannot be performed by LPNs.

Is there a definition in the Nursing Practice Act for

what legally constitutes supervision as it would be applied to LPNs and unlicensed assistive personnel?

At www.ecodev.state.mo.us/pr/nursing, click on Nursing Practice Act, click on Rules and Regulations, and go to 4 CSR 200-5.010 Definitions where you will find “proper supervision” defined.

Can a LPN direct/supervise a RN’s nursing care?

At www.ecodev.state.mo.us/pr/nursing, click on Nursing Practice Act, click on Statutes, and go to 335.016 (9), RSMo for the authorized scope of practice of a LPN, and go to 335.016 (10), RSMo for the authorized scope of practice of a RN. A LPN license provides LPNs with authority to perform nursing care only under the direction/supervision of either a RN or a person licensed by a state regulatory board to prescribe medications and treatments. LPNs are not legally authorized to perform nursing acts independently.

Can a LPN be in charge of a unit with a RN working the floor on that unit?

The authority LPNs have, given their LPN license, is discussed above. It is important for RN supervisors, who delegate a unit charge role to LPNs, to consider the specific nature of the various unit administrative and clinical leadership responsibilities being delegated and not merely delegate the role. For example, the legal authority of LPNs does not include providing clinical leadership to RNs. RNs, on the other hand, have legal authority to provide clinical leadership to LPNs.

Are there other statutes and rules than those in the Nursing Practice Act that may influence my scope of practice as a licensed nurse?

At www.ecodev.state.mo.us/pr/nursing, click on Focus on Practice, click on Differentiating Statute from Rule, and go to either Other Statutes or Other Rules of Interest to Nurses for examples of laws other than those in the Nursing Practice Act that may impact the practice of licensed nurses. For example, an entity that is required to have a state license to operate will have laws that regulate its operations and may also have provisions in its licensing laws that can influ-

PRACTICE CORNER cont. on pg. 15

PRACTICE CORNER cont. from pg. 14

ence nursing practices within that entity. There may also be federal laws that certain entities may be required to abide by and these federal laws may also include provisions that can regulate practice.

Can I, as a Board of Nursing recognized family nurse practitioner, do family practice under a collaborative practice arrangement with a psychiatrist who does no family practice?

At www.ecodev.state.mo.us/pr/nursing, click on Advanced Practice and go to Collaborative Practice where you can review the rule, 4 CSR 200-4.200 Collaborative Practice. There are at least four (4) subsections in section (3) [(3)(A);(3)(B);(3)(C);(3)(I)11] of the Collaborative Practice rule that emphasize mutual scopes of practice between the collaborating physician and advanced practice nurse. Subsection (3)(A), for example, states that the methods of treatment and delegated authorities “shall be within the scope of practice of each professional and shall be consistent with each professional’s skill, training, education, and competence.”

I am interested in pursuing recognition to title, represent myself, and practice as an advanced practice nurse (i.e., nurse anesthetist, nurse midwife, nurse practitioner, clinical nurse specialist) in Missouri. How do I find out what certifying bodies are acceptable to the Missouri State Board of Nursing?

At www.ecodev.state.mo.us/pr/nursing, click on Advanced Practice button, click on Advanced Practice Nurse, and click on Nationally Recognized Certifying Bodies Acceptable to the Missouri State Board of Nursing. You will find information there about each of the certifying bodies acceptable to the Board.

Preventative Care for your Nursing License

In order to enjoy good health, we all know we must engage in preventative health care. Those activities should include exercising, eating a healthy diet, not smoking, visiting the doctor/dentist for routine checks, getting adequate sleep and drinking plenty of water. More importantly, we know that non-participation in these activities may result in poor health.

I believe the same general concept can be applied to caring for your nursing license. You will find that by participating in certain activities that you may keep your license in “good health” and hopefully, complaint free.

Cardwell

There are preventative activities that nurses can participate in to maintain good “licensure health.” Based on the types of complaints that are received in the Board office, I have identified below some of those activities.

Medication error - The five rights of medication administration must be utilized every time you administer a medication: the right drug, the right patient, the right dose, the right route and the right time. Follow facility policies and procedures related to documentation and wasting of controlled substances.

Lapsed license - Your nursing license must be kept current by being aware of upcoming renewal time, and advising the Board office of address changes. New graduates must be aware of the graduate exemption practice period!

Misuse/abuse of chemicals - Be mindful of the addictive potential of alcohol and controlled substances and that their use/misuse can interfere with your ability to consistently perform nursing activities in an organized and competent manner.

Abuse - Your nursing care must be given in a sensitive and caring manner, as though the patient is a member of your own family. Hurried, abrupt actions can reflect a less than caring nurse. A patient’s perception of your care of them is everything.

Unprofessional conduct - Professional conduct must reflect an understanding as well as a demonstration of appropriate, professional nurse-patient relationship boundaries.

Familiarity with and following an entity’s policies and procedures regarding resignation and expectations of calling in ill for a shift assists you in demonstrating a professional demeanor.

Poor nursing practice skills - Your nursing activities must reflect proper nursing judgement by performance that is consistently competent, responsible and accountable. Additionally, you must not place ourselves in a nursing environment where you may not have the appropriate knowledge, skills or expertise to assure safe patient care.

Practicing beyond the scope of your nursing license - You can remain within your scope of practice by developing a working understanding of the clinical limitations of your license as identified under the definition of RN and LPN in the Nursing Practice Act.

Documentation - Documentation of patient care must be timely, complete and accurate particularly for those patients who are undergoing a change of condition or experiencing pain.

In closing, I’d like to remind you to participate in those activities that will keep you **and** your license “healthy.”

DISCIPLINARY ACTIONS**

Pursuant to Section 335.066.2, RSMo, the Board “may cause a complaint to be filed with the Administrative Hearing Commission as provided by Chapter 621, RSMo, against any holder of any certificate of registration or authority, permit, or license required by sections 335.011 to 335.096 or any person who has failed to renew or has surrendered his certificate of registration or authority, permit or license” for violation of Chapter 335, the Nursing Practice Act.

Please be advised that more than one licensee may have the same name. Therefore, in order to verify a licensee’s identity, please check the license number.
